

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

HAND-LIST OF AMERICAN STATUTE LAW

TO THE READER:

In order to secure the best results from the use of this Hand-List, it is essential that the Preface be first carefully read.

While it has been the effort to avoid making the book artificial or to complicate it with arbitrary terms and expressions, in some particulars the intention will not be understood without the information supplied by Mr. Belden's introductory explanation.

PREFACE.

This Hand-List of statute law is intended to be taken for no more than its name implies. It is not a catalogue, since that word includes bibliographic elements to an extent here prohibited, both by time and cost. It is believed that the list form will prove more generally convenient than a catalogue, with the title-page of every volume of session laws an independent unit.

With respect to legislative sessions and session laws, the purpose is to show every session that has occurred in each jurisdiction as discovered by diligent search, and, so far as practicable, to refer the reader to the volumes in which the laws of each session may be found.

In the historical and bibliographic notes no more is stated than an outline of political changes sufficient to give a clear idea of the session laws and legislation in each jurisdiction.

Whenever the text is printed in roman, it indicates that the particular volume or matter is to be found in the State Library of Massachusetts. Whenever such text is printed in *italics*, it is because the particular volume or matter is not to be found in the State Library.

Concerning Revisions, Compilations, etc., in order to make the list as complete as possible, in addition to volumes contained in the STATE LIBRARY OF MASSACHUSETTS, and in the SOCIAL LAW LIBRARY of Boston, the printed catalogues of the following libraries have been consulted: LIBRARY OF HARVARD LAW SCHOOL (1909); LIBRARY OF DEPARTMENT OF JUSTICE (1904); LIBRARY OF THE NEW YORK CITY BAR ASSOCIATION (1892). It is thought in this way that most of the principal statute collections have been listed. When a compilation, revision or digest is referred to as being in the Social Law Library, no additional reference is given. Owing to the large collection of early common-school laws in the State Library, an exception has been made, and its collection included under "Statutes, compilations," etc.

While it has been the effort to record every legislative session and every volume containing session laws or revisions and compilations of

laws, it is too much to expect that the result has been without omission or error. It is desired that readers possessed of pertinent information, will favor this library with their knowledge, so that errors may be corrected and omissions supplied.

The recent report of the committee of the American Association of Law Libraries on reprinting Session Laws, prepared by Dr. G. E. Wire of Worcester, dwells upon the widespread interest in and demand for session laws. Hitherto the literature of the subject has been so fragmentary and scattered as in large degree to be unavailable for practical needs. This Hand-List is designed to meet such immediate demand and interest, although it is hoped that some specialist, who is fortunate in possessing ample time and sufficient means, will soon publish a full bibliography of American session laws.

It is a pleasure to commend the zeal and interest which Mr. Babbitt has brought to the task of compilation. No labor has been too great in the search for information and no detail too small to receive its proper attention.

CHARLES F. D. BELDEN,
State Librarian.

STATE OF FRANKLAND.

In United States Charters and Constitutions, Part II, p. 1664, it appears that as the state of Tennessee became settled, "it was recognized as a portion of North Carolina, but the pioneers as early as 1772, asserted the right of self-government, and the constitution of what was known as the 'Watauga' government" was adopted. In 1784 North Carolina "offered to cede her lands west of the mountains to the United States, but the offer was not accepted, and was withdrawn. This led the pioneers to form, for their personal security, a government known as 'the State of Frankland.' There was an indisposition . . . to rebel against North Carolina, and 'Declaration of Rights' and 'Constitution' which was submitted at a convention . . . were rejected, while the constitution of North Carolina, slightly modified, was adopted. The powers of an independent state government were exercised, however, until North Carolina, by a conciliatory policy, resumed her jurisdiction, and then, Feb. 25, 1790, ceded that portion of her territory west of the mountains to the United States." (See also "Wheeler's History of North Carolina" (Phila., 1851), Vol. I, p. 90; also North Carolina and Tennessee.)

Manuscript Laws of Massachusetts. The following is a statement by Mr. James J. Tracy, chief of archives division, concerning the original enactments in manuscript which are preserved in his office in the State House at Boston: —

"Legislative action during the Colony period, 1628-86, is recorded in the first five volumes of the Records of the Massachusetts Bay Colony. The manuscript collection, known for purposes of reference as 'Massachusetts Archives,' contains the petitions, reports and other documents upon which the General Court based legislative action, together with the original votes and orders drafted as they were passed. There are no formal acts existing of the period mentioned.

¹ This constitution became effective, Oct. 25, 1780, see folio "Perpetual Laws," printed by Adams and Nourse, p. 27, Boston, 1789. (See also "Constitutional Conventions," etc., *post*.)

The Andros interregnum, 1686-89, eliminated the General Court.

The first engrossed acts on parchment in the State archives are those bearing the signature of Andros. They are not complete for his whole term, but the manuscript collection contains the bills as originally drafted where engrossments are lacking as well as the petitions, etc., upon which action was taken.

The General Court records begin again with the overthrow of Andros in 1689 and contain all votes, orders and resolves from that time to the sitting of the First Provincial Congress in October 1774. The engrossments of formal acts are continuous, with but few omissions, from 1692 to the present time. The papers upon which these acts are based are in the manuscript collection as well as those causing orders and resolves to be passed.

The Commonwealth period, 1780-1912, marks a difference in the treatment of legislative records, as all papers which make up the history of an enactment from the first step to its final passage have since that time been filed under the chapter numbers given acts and resolves in each year. The engrossed acts and resolves are bound in volumes. There are no missing acts or resolves for this period."

95 p. 4to. Washington, 1908.

Explanatory note. Rhode Island session laws are grouped in two distinct classes, to wit: (1) "PUBLIC LAWS," (2) "ACTS AND RESOLVES." Each class is separately listed.

- "The Acts and Resolves contain the Public Laws, acts of a local and private nature, resolutions, proceedings of the grand committee, certificates of incorporation granted by the secretary of state and other legislative data. These are issued in pamphlet form by sessions and bound with the annual reports for the year under the binder's title 'General Assembly Reports,' 'Records,' and 'Acts, Resolves and Reports.' Prior to May, 1900, the last mentioned was in one volume but later the Acts and Resolves were bound separately.

"The Public Laws are issued as supplements to the revisions, carrying continuous chapter numbering. They are published in two editions; an annual paper edition, and a compiled edition issued since 1896 at biennial intervals. The 'annual edition' was first issued in 1873. The compiled edition has been prepared at irregular intervals since 1810, but session laws for the years 1879, 1880, 1881, 1894, 1895, 1896 and 1908 are only found in the annual edition. The laws for 1843 were printed only in the Acts and Resolves.

"Judiciary Act of 1893 and 'Accord and Practice Act' of 1905 are also part of the session laws, but are separate from the other laws." (H. O. Brigham, Rhode Island State Librarian.)
